First Outing Equipment Checklist

Inventory what you own first. Confirm each item fits your equipment and reserved site. Add only what the trip requires.

RV, destination, trip dates, and expected hookups

Category and items to check	Have	Need or N/A
Electrical: rated cord, protection, required adapters		
Water: potable hose, pressure control, compatible fittings		
Waste: sewer hose, fittings, gloves, separate storage		
Parking: chocks, approved leveling aids, support pads		
Checks: flashlight, suitable tire gauge, approved owner tools		
Meals: food, cookware, dishes, and drinking water		
Comfort: bedding, clothing, hygiene, and cleaning supplies		
Safety: first aid, medication, charged communications		
Pets: food, restraints, care supplies, records if needed		

Compatibility or site questions to resolve before buying

Items we will postpone until experience shows a need

Final storage and weight check completed by and date

Keep drinking-water and waste equipment separate. Secure heavy items and preserve the rig's weight limits. An electrical adapter does not increase the power available.
