Maintenance and Service Record

Use one sheet per system or service task. Base the interval on the RV or component manual, and retain receipts and service details.

RV, system or component, model, and task

Required interval and manual source or page

Last completed date, mileage or hours, and provider

Next due date, mileage or hours

Record the work

Observed concern, symptoms, conditions, or error codes

Diagnosis, work completed, parts used, and provider

Cost, receipt location, and warranty or authorization record

Follow-up requirement and responsible person

Contacts and next decision

Service provider, phone, and appointment details

Roadside assistance contact and membership record location

Follow whichever time, mileage, or hour limit applies first when the manual specifies multiple limits. This record is not a diagnosis. Stop using equipment that may be unsafe and seek qualified help.
