Ninety Day Preparation Calendar

WC-15 | Chapter 7 | Both | Version 1.0

Work backward from the agreed arrival date. Record actual due dates and keep both sides informed when a milestone changes.

Write in the spaces or click a blank field to type in Word.

Campground and arrival date	Owner and workcamper contacts

90 to 61 days out

Owner: Close agreement gaps, hiring conditions, trainer, and site.

Workcamper: Confirm each role, days off, family dates, pets, mail, visitors, and appointments.

Due date, status, and next action

---

60 to 31 days out

Owner: Inspect and repair the site. Prepare keys, uniforms, radios, tools, and logins.

Workcamper: Service the RV. Plan the route, prescriptions, insurance, care, and travel reserve.

Due date, status, and next action

---

30 to 8 days out

Owner: Send the arrival packet and warn promptly about delays.

Workcamper: Check the actual route and cell service. Save contacts offline.

Due date, status, and next action

Final week

Owner: Confirm the day, site readiness, and greeter.

Workcamper: Confirm arrival and first work activity. Check weather and roads.

Due date, status, and next action

Use WC-14 for the packet and WC-28 for a backup plan. An opening delay needs a new decision, not an assumption that travel should continue.
